

PUBLIC MEETING NOTICE

Sylvania Heights Stormwater Park

PROJECT DESCRIPTION

The purpose of this project is to alleviate flooding in the Sylvania Heights and Echo Circle area. The intent is to develop a wetland/stormwater park with amenities such as dry playgrounds and ball fields that will also double as a stormwater pond during heavy rainstorms. RESTORE Act grant funding is being utilized for design of the project, and additional grant funding will be pursued for construction, leveraging Surtax funding.
